

**Pesticide Notification Requirements for the Application of Pesticides to Waters of
the State of North Dakota**

**North Dakota Department of Health
Division of Water Quality
April 2006**

State water quality regulations (North Dakota Administrative Code 33-16-02.1) require that the North Dakota Department of Health (department) must be notified at least twenty (20) days prior to the application of any pesticide (herbicide, insecticide, biocide, piscicide, algacide) to surface waters of the state for control of aquatic pests. The notification must include the following:

- a.** The chemical name and its composition
- b.** A map which identifies the area of application and the aerial extent of application.
- c.** A list of the target specie(s) of aquatic biota the applicant desires to control.
- d.** The calculated concentration of the active ingredient in surface waters immediately after application.
- e.** The name address and telephone number of the certified applicator, if a restricted use pesticide is being used.

Notification must be made in writing and provided to the department at least twenty (20) days prior to application. Notification should be sent to:

Michael J. Ell
Environmental Administrator
North Dakota Department of Health
Division of Water Quality
918 East Divide Avenue, 4th Floor
Bismarck North Dakota 58501-1947
